Amendment to Church Canon Will Require Change in Plan-A Mistake Made.

HUNTINGDON, Dec. 39 .- The controversy between Rt. Rev. Ethelbert Tal-bot, bishop of central Pennsylvania diocese, and Rev. Dr. Ingram N. W. Irvine has assumed a sensational phase. "Presenter" John Langdon denies hav-

ing placed his signature to the presentment which contains the specifications ment which contains the specifications against the prelate.

"I did not place my name to any such document, neither have I seen it." declared Mr. Langdon, who is a prominent coal operator.

### Canada May Retaliate Upon American Banks

Plan to Drive the Use of American Money Out of Business Within Limits of the Dominion.

TORONTO, Dec. 39.—Robert Bickerdike, vice president of the Hoche agal Bank, Montreal, has announced that at the next session of parliament he will move the adoption of a bill making it a criminal offense to circulate American

lips. After silence had become painful even to himself, he said:

"It is up to the board of inquiry in this case, and the presenters have nothing to do with it."

Asked if he had signed the presentment, Miller again became mute and retired to the end of his poolroom.

The amendment to the church canon egulating the appointment of a board of inquiry will necessitate a change in plans of the presenters. Henry Budd, who drew up the presentment, says when the papers were prepared last August they were regular. It was after that time the general convention amended the canon.

Two of the associate counsel in the but it was in the form of a private communication addressed to Rt. Rev. O. C. Tuttle, bishop of Kentucky, asking that the Talbot-irvine case be forever stilled. The communication was limited to about twenty words and was signed by the other communication was brought to my home by Vestryman G. W. Miller, who is a presenter, and as it was signed by the others of the vestry I did not hesitate to place my name to it at Mr. Miller's request.

"Indeed to the presentment?"

"I did not."

"I have read them in the newspapers," Jackson is no longer an attendant of St. John's Church. He ceased to go when Dr Irvine was unfrocked.

The daughter of James Denithorne answered the summons when a reporter alled at his home, but his wife said:

"Mt. Denithorne did not sign that presentment," and it seems a burning shame that our little church should again be dragged into this scandal. It will ruin it mid if it does I hope that Dr. Irvine will receive his just dues for bringing this disgrace upon our parish Mr. Denithorne was his friend, but If he has beet tricked I assure you that his friendship will cease at once."

## Running on Schedule Time Saves Cost

If every engineer made his own schedule, railroads could not afford to carry passengers at a dollar a mile.

It is the system that saves.

It is the want of system that costs.

Under the ordinary, haphazard plan of cigar distribution, every tobacco grower, cigar factory, broker, jobber and retailer runs on his own schedule. Each runs over his own line at his own convenience. If there are

connections made, it is by accident. There are more accidents than connections. As it would in railroading, this want of system results in slow, costly, unsatisfactory service.

The United Stores alone have applied system to the retail cigar business. We have placed in public service hundreds of retail stores coupled to a dozen modern factories growing their own Havana tobacco and producing cigars better in quality, more uniform in character and more dependable than any other manufacturing system can produce. We deliver the output of these factories right to the smoker with but one handling.

Did you ever think that an enormous output both enables and compels us to contract for cigars months ahead? That it is only by doing this that we can secure our supply on schedule time? When we talk about a cigar it means that we have been a year in paving the way to a new cigar pleasure for our patrons. It means that we have gone to factories that grow their own tobacco, and that we have said to them: "we want what you make so long as you make what we want. We will watch. We will inspect. A cigar is no better than its poorest leaf. On behalf of our million customers we insist that every leaf shall be prime."

Does it not strike you that this system of far-ahead planning, buying and inspecting should get better cigars than can be had in any other way?

It does get better cigars.

It brings our customers good 15c. quality for 10c.; good 10c. quality for 6c.; the regular 3 for 25c. quality for 5c., and so up and down the line.

Whenever any customer has a cigar want, we supply it through our system on schedule time.

All qualities of cigars, always in perfect condition
